Did You Know...

A **math proficiency score** for higher math - like Math 1 & up - only includes the % of students taking the test **that year**.

It doesn't include who passed the test in previous years & has moved on to higher level math. **It doesn't tell you how many kids overall can do math.**

www.GEANC.org

Did You Know...

Over the past 10 years, GCS has **cut the graduation gap** between white & Black students by **more than 40%**.

Did You Know...

GCS 21-22
End-of-Grade (EOG)
scores showed -

Reading proficiency for students in grades 4-8 **increased** for every demographic group.

www.GEANC.org

Did You Know...

The average GPA for GCS graduating seniors is **3.24**.

60% have a GPA of **3.0** or higher.

www.GEANC.org

Did You Know...

Standards are **not** consistent for state tests.

Example: 45% of GCS 8th graders scored proficient on reading, but nearly 70% of GCS 8th graders scored proficient on the state science test.

You can't do well on a science test if you can't read. **State standards aren't aligned & can be misleading.**

Did You Know...

The state requires the reporting of **proficiency scores** on state English, math & biology tests.

The state also requires that these scores include students with disabilities & students who speak English as a second language **which can skew overall scores.**
