

Did You Know... GCS Construction

Did You Know...

School Construction
STAGE 1

Pre-design

Consists of community meetings to discuss safety, learning spaces and overall look and design of school.

Time frame: about 1-2 months.

Did You Know...

School Construction
STAGE 2

Design Process

Experts combine ideas from pre-design phase into one plan. Multiple feedback sessions occur until the plan is finalized.

Time frame: 2-4 months

Did You Know...

School Construction
STAGE 3

Bid Process

Project Managers review bids from contractors to build the school for the best price. GCS is competing with other projects in the county and state.

Time frame: Unpredictable, around 2-4 months
